

GENTLE AND CARING FOR PATIENTS BOTH YOUNG AND OLD

MINICOLLECT® Safety lancets

MiniCollect® safety lancets are intended for single use only. Depending on the lancet type, blade or needle, different penetration depths are available.

MiniCollect® safety lancets ensure enhanced safety when collecting capillary blood samples. Once the puncture has been performed by pressing the release mechanism, the blade/needle automatically retracts irreversibly into the plastic housing.

- / Safe and hygienic capillary blood collection
- / Greater precision for easy sample collection
- / Clear colour coding of the different types
- / Ergonomic design for easier handling
- / For a controlled penetration depth

WIDE RANGE OF LANCET TYPES

Both lancet type (needle/ blade) and insertion depth can be identified by the colour.

BLOOD SAMPLE VOLUME

... when using a safety lancet with needle:

- lavender lancet
- orange lancet

... when using a safety lancet with blade:

- pink lancet
- green lancet
- blue lancet

RECOMMENDED HANDLING

Please observe the instructions for use at www.gbo.com.

1

Pre-warm and disinfect the puncture site according to your internal guidelines.

2

Pull off the protective cover.

3

Position the lancet, press the release button downwards and then dispose of it.

4

Gently apply pressure to the surrounding tissue and discard the first drop of blood.
