VACUETTE® QUICKSHIELD Safety Tube Holders & Accessories:

These devices have no components made of natural dry rubber.
**VACUETTE® QUICKSHIELD Safety Tube Holder**

**For daily blood collection procedures**

The VACUETTE® QUICKSHIELD Safety Tube Holder is especially suitable for routine blood collection. There is no change to usual collection technique, and the safety shield is activated either one-handed with the aid of a solid surface or with the thumb. The product can provide the user with the simplest handling and reliable infection protection.

- **VACUETTE® QUICKSHIELD Protective Cap**
  - Is pre-assembled directly on the holder.
  - The cap is activated immediately upon withdrawal of the needle from the patient’s vein.

- **VACUETTE® QUICKSHIELD Complete PLUS**
  - Safety Tube Holder & VACUETTE® VISIO PLUS Needle.
  - The holder comes with pre-attached needle, sterile and single-packed in blister.
  - Transparent view window for optical venipuncture control.
  - It is not necessary to thread in the needle.
  - A practical, ready-to-use solution that saves time.
  - Handling is optimised.

**Activated with the aid of a solid surface and/or thumbs.**

- **Comfort through one-handed activation.**
- **User-friendly - dot on needle container allows user to choose which side the VACUETTE® QUICKSHIELD Safety Tube Holder should be positioned for optimal venipuncture.**

**Exclusively for use with VACUETTE® Multiple Use Drawing Needles.**

- **VACUETTE® VISIO PLUS Needles.**
- **No changes to collection technique.**
- **Especially suits as the fingers remain behind the needle tip at all times.**
- **The protective cap is pre-attached to the holder, remaining stable. Once activated, there is no chance of the protective cap coming off.**
- **An audible click indicates to the user that the protective cap has been fully activated.**

**Simply Practical: VACUETTE® QUICKSHIELD Complete PLUS**

Also available as a complete product with a pre-assembled VACUETTE® VISIO PLUS Needle, making the VACUETTE® QUICKSHIELD Safety Tube Holder the ideal product for safe blood collection.

The VACUETTE® VISIO PLUS Needle with optical venipuncture control makes blood collection much easier for the user. With the transparent view window in the needle hub, blood flow is visible immediately upon correct vein penetration.

**Instructions for Use**

1. **Thread the needle** **\(^\star\)**
2. **Remove protective cap**
3. **Venipuncture**
4. **Insert the tube**
5. **Remove the last tube**
6. **Activate the safety mechanism** (with the aid of solid surface or thumb)
7. **Audible click indicates activation**
8. **Disposal**

**VACUETTE® VISIO PLUS Needle**

- Transparent View Window

**For daily blood collection procedures**

The VACUETTE® QUICKSHIELD Safety Tube Holder offers the following advantages:

- For pain-free venipuncture. The perfectly matched needle and holder mean that the needle tip is always oriented in the correct position for easy specimen collection.

**Item No. 450230**

- **VACUETTE® QUICKSHIELD Protective Cap**
  - Is pre-assembled directly on the holder. The cap is activated immediately upon withdrawal of the needle from the patient’s vein.

**Item No. 450071-77**

- **VACUETTE® Multiple Use Drawing Needle**
- **VACUETTE® VISIO PLUS Needle**
- **Transparent View Window**

**For daily blood collection procedures**

Without the need to change collection techniques, the holder helps prevent needlestick injuries.

**Item No. 450226, 450228, 450235, 450239**

- **VACUETTE® VISIO PLUS Needle** with optical venipuncture control makes blood collection much easier for the user.

- With the transparent view window in the needle hub, blood flow is visible immediately upon correct vein penetration.

**Simply Practical:**

- **VACUETTE® QUICKSHIELD Complete PLUS**
- Also available as a complete product with a pre-assembled VACUETTE® VISIO PLUS Needle, making the VACUETTE® QUICKSHIELD Safety Tube Holder the ideal product for safe blood collection.

- The VACUETTE® VISIO PLUS Needle with optical venipuncture control makes blood collection much easier for the user.

- With the transparent view window in the needle hub, blood flow is visible immediately upon correct vein penetration.

**Item No. 450040-43**

**For daily blood collection procedures**

The VACUETTE® QUICKSHIELD Safety Tube Holder is especially suitable for use in daily blood collection routines. Without the need to change collection techniques, the holder helps prevent needlestick injuries.

**Simply Practical:**

- **VACUETTE® QUICKSHIELD Complete PLUS**
