TESTING, EXAMINATION AND ASSESSMENT OF SHARPS CONTAINERS SUBMITTED AS INDEPENDENT TEST SAMPLES

INTRODUCTION

At the request of Sanypick Plastics SA the Sharps Containers detailed below, were tested and assessed against the requirements of BS 7320:1990, as indicated on the following pages of this Report. This request was made in an Letter from the Client dated 26 November 2002 and reference Testing to BS 7320:1990. It is emphasized that assessments were not made against the other clauses of the Specification.

This Report only relates to the actual samples which have been tested and assessed. The results obtained do not necessarily relate to samples from the production line and in no way imply the performance or quality of the continuing production.

TEST ITEMS

10 off 1.8 Litre Sharps Containers plus Lids
10 off 3 Litre Sharps Containers plus Lids
10 off 5 Litre Sharps Containers plus Lids
10 off 10 Litre Sharps Containers plus Lids

SUMMARY OF RESULTS

The 1.8 Litre, 3 Litre and 5 Litre Sharps containers failed to meet the requirements of clauses 7 and 8 of the specification, but met the requirements of those other clauses, or parts thereof, against which assessments were made.

The 10 Litre Sharps container failed to meet the requirements of clause 8 of the specification, but met the requirements of those other clauses, or parts thereof, against which assessments were made.

The potential variability in, both the items tested and the method of measurement used, means that for measurements close to a specified limit, the level of confidence in a compliance statement may or may not be reduced.

Further advice on the specific measurements in this report that may be affected can be obtained from the report authoriser shown on the front cover.

TESTING, EXAMINATION AND ASSESSMENT OF SHARPS CONTAINERS SUBMITTED AS INDEPENDENT TEST SAMPLES

INTRODUCTION

At the request of Sanypick Plastics SA the Sharps Containers detailed below, were tested and assessed against the requirements of BS 7320:1990, as indicated on the following pages of this Report. This request was made in an E-Mail from the Client dated 28 February 2003. It is emphasized that assessments were not made against the other clauses of the Specification.

This Report only relates to the actual samples which have been tested and assessed. The results obtained do not necessarily relate to samples from the production line and in no way imply the performance or quality of the continuing production will be maintained.

TEST ITEMS

1 off 5 Litre Sharps Containers plus Lids
1 off 3 Litre Sharps Containers plus Lids
1 off 1.8 Litre Sharps Containers plus Lids
Assembly Instructions for 10, 5, 3 and 1.8 Litre Containers

This is a retest from BSI Product Services Report Number 286/4409451
Equipment Number 10045044

SUMMARY OF RESULTS

The Sharps Containers met the requirements of those clauses, or parts thereof, of the Specification against which assessments were made.

The potential variability in, both the items tested and the method of measurement used, means that for measurements close to a specified limit, the level of confidence in a compliance statement may or may not be reduced.

Further advice on the specific measurements in this report that may be affected can be obtained from the report authoriser shown on the front cover.
